Contents of Volume 131

Research Articles

D.W. Klumpp and A.D. McKinnon (Australia)
Temporal and spatial patterns in primary production of a coral-reef epilithic algal community 1

S.Y. Lee (Hong Kong)
The importance of sesarminae crabs *Chiromanthes* spp. and inundation frequency on mangrove (*Kandelia candel* (L.) Druce) leaf litter turnover in a Hong Kong tidal shrimp pond 23

D.J. Barnes, J.M. Lough and B.J. Tobin (Australia)
Density measurements and the interpretation of X-radiographic images of slices of skeleton from the colonial hard coral *Porites* 45

N.L. Andrew and A.J. Underwood (Australia)
Patterns of abundance of the sea urchin *Centrostephanus rodgersii* (Agassiz) on the central coast of New South Wales, Australia 61

A.G. James and T. Probyn (South Africa)
The relationship between respiration rate, swimming speed and feeding behaviour in the Cape anchovy *Engraulis capensis* Gilchrist 81

A.G. James, T. Probyn and L.J. Seiderer (South Africa)
Nitrogen excretion and absorption efficiencies of the Cape anchovy *Engraulis capensis* Gilchrist fed upon a variety of planton diets 101

A.G. James, T. Probyn and L. Hutchings (South Africa)
Laboratory-derived carbon and nitrogen budgets for the omnivorous planktivore *Engraulis capensis* Gilchrist 125

B.L. Bingham and L.J. Walters (U.S.A.)
Solitary ascidians as predators of invertebrate larvae: evidence from gut analysis and plankton samples 147

A.E. Wilbur and T.J. Hilbish (U.S.A.)
Physiological energetics of the ribbed mussel *Geukensia demissa* (Dillwyn) in response to increased temperature 161

L. Nadeau, J.A. Paige, V. Starczak, T. Capo, J. Lafler and J.P. Bidwell (U.S.A.)
Metamorphic competence in *Aplysia californica* Cooper 171

B.L. McGee and N.M. Targett (U.S.A.)
Larval habitat selection in *Crepidula* (L.) and its effect on adult distribution patterns 195

D.H. Wilber and T.P. Wilber, Jr. (British West Indies)
The effects of holding space and diet on the growth of the West Indian spider crab *Mithrax spinosissimus* (Lamarck) 215

G.C. Jensen (U.S.A.)
Gregarious settlement by megalopae of the porcelain crabs *Petrolisthes cinctipes* (Randall) and *P. eriomerus* Stimpson 223

L.D. McCann and L.A. Levin (U.S.A.)
Oligochaete influence on settlement, growth and reproduction in a surface-deposit-feeding polychaete 233

Y. Henmi (Japan)
Factors influencing drove formation and foraging efficiency in *Macrophthalmus japonicus* (De Haan) (Crustacea: Ocypodidae) 255

T.H. Carefoot (Canada)
A comparison of time/energy budgeting in two species of tropical sea hares *Aplysia* 267
